Research on the Construction of Self-management and Self-cultivation Teams in Student Dormitory of Private Colleges and Universities in the Capital

LI Shuhua WANG Yilin DING Cong
Beijing City University Beijing 100083 China

Abstract This paper mainly puts forward the necessity of the construction of the " five-types " self-management and self-cultivation teams in student dormitory from the perspectives of policy requirements and talent training and emphasizes that the construction of student self-management and self-cultivation teams should meet the needs of students and the characteristics of student dormitory in colleges and universities. The advantages of self-management and self-cultivation teams promote ideological and political work into dormitories and accelerate the construction of ideological education positions in student dormitory. At the same time the construction of student self-management and self-cultivation team should be improved and developed from the aspects of strategic development selection and equipment management mechanism and so on.

Keywords student dormitory five-types self-management and self-cultivation
